Instructions for form FTB 3701

Request for Abatement of Interest

These instructions are based on California Revenue and Taxation Code Section 19104(a).

General Instructions

Purpose of Form

Use form FTB 3701 to file a request for the abatement of interest. The Franchise Tax Board (FTB) can abate all or any part of assessed interest when the additional interest is attributable to FTB errors or delays or errors and delays attributable to the Internal Revenue Service.

When interest may be abated based on FTB errors or delays.

The law only allows FTB to abate interest for FTB errors or delays under the following circumstances:

- The deficiency or proposed deficiency upon which the interest was charged was attributable in whole or in part to any unreasonable error or delay by an officer or employee of the Franchise Tax Board (acting in his or her official capacity) in performing a ministerial or managerial act.¹
- The payment of any final deficiency assessment was delayed due to that officer or employee being dilatory in performing a ministerial or managerial act.
- For ministerial acts, the interest at issue accrued after September 25, 1987, without regard to tax year.
- For managerial acts in tax years beginning on or after January 1, 1998:
 - No significant aspect of the delay or error was attributable to the taxpayer, and
 - The error or delay occurred after the date the FTB contacted the taxpayer, in writing, with respect to the deficiency or payment.

Note: Normal return processing or audit work within the statute of limitations time period will not in itself justify the abatement of interest. **Generally**, the FTB has four years to make an audit adjustment.

When interest may be abated based on IRS errors or delays.

The law only allows FTB to abate interest for IRS errors or delays under the following circumstances:

- Upon a showing of an abatement of interest by the IRS attributable to an error or delay in the performance of a ministerial or managerial act. The error or delay must have occurred on or before the IRS issued a final

determination of tax. The deficiency upon which the federal interest abatement was allowed must be related to the state deficiency. FTB can only abate interest for the same time period that the IRS abated interest.

- For ministerial acts, the interest at issue accrued after September 25, 1987, without regard to tax year.
- For managerial acts in tax years beginning on or after January 1, 1998.

Definitions:

Ministerial act means a procedural or mechanical act that does not involve the exercise of judgement or discretion and that occurs during the processing of a taxpayer's case after all prerequisites to the act, such as conference and review by supervisors, have taken place (Treas. Reg. 301.6404-2).

Managerial act means an administrative act that occurs during the processing of a taxpayer's case, which involves the temporary or permanent loss of records. A managerial act is also the exercise of judgement or discretion relating to management of personnel (Treas. Reg. 301.6404-2(b)(1)).
